□

Si!Happy International presents the "Si!Happy Italian Touch" section, dedicated

to the excellence of MADE IN ITALY who want to improve their web visibility abroad, providing not only information on Italian products or services but above all to make our entrepreneurs better known, those who dedicate love and passion daily, to create and maintain the reputation of Italian style around the world. It is no coincidence that the service dedicated to them is called Si!Reputation and it offers the opportunity to learn more about entrepreneurial figures who often risk ending up in anonymity, especially on the WEB. We are confident that those who have contributed to the success of MADE IN ITALY deserve to have the story told and spread throughout the world.

Descrizione

Si!4Business is much more than a website: it is the tool that allows you to integrate and coordinate your channels and your communication activities with the market: website, social media, Google My Business card, direct marketing, digital couponing. A unique multi channel marketing tool that allows you to respond to your customers' needs by letting them find everything they are looking for in your digital properties: offers and promotions, reviews about your business, the ability to book your services, request quotes, to buy and pay online, to interact and contact you from any device, to become part of your contact database.
